ABOUT ME

Data Analytics graduate (Bc.) beginning a Master's in Artificial Intelligence. I work across machine learning, business intelligence, and full-stack development. Recent highlights include a 1st-place data-visualization hackathon and a machine-learning bachelor's thesis on detecting collusion in public procurement. A committed AI enthusiast.

EDUCATION

Technical University of Košice | 2026 – 2028

Master's in Artificial Intelligence

Engineering (master's) programme focused on artificial intelligence, machine learning, and intelligent systems (starting September 2026).

Technical University of Košice | 2023 – 2026

Bachelor's in Business Informatics

Bridged informatics and economics. Bachelor's thesis: unsupervised machine learning to detect collusion in public procurement.

Secondary Technical School, Humenné | 2019 – 2023

Technical Lyceum

WORK EXPERIENCE

Syntax | Jan 2026 – Present

Working Student, Contractor Management

Manage the company's contractor lifecycle end to end: onboarding, security and access provisioning, and offboarding. Coordinate accounts, documentation, and cross-team access, keeping processes secure and reliable alongside full-time study.

Lidl | Apr 2025 – Dec 2025

Sales Assistant (Part-time)

Part-time role in a fast-paced retail team alongside full-time studies; built strong work ethic, reliability, and time-management skills.

SKILLS

Python, SQL, Java, TypeScript
Pandas, NumPy, scikit-learn
Data visualization & ETL

Machine Learning & anomaly detection
Business Intelligence (Power BI, Tableau)
Git, Jupyter, Excel
